ECHIE MINER DESCRIPTION OF THE PROPERTY OF THE

### FINANCIAL AND COMMERCIAL.

TUESDAY, Sept. 7-6 P. M. The activity inaugurated by the speculation in the Gold Room has been followed by the greatest activity in the stock market, where the excitement to-day was only equalled by that which prevailed yesterday in the Gold Room. The spectator who re-gards the stock market from a distant standpoint, from which all the numerous little counter currents of speculation are lost sight of, will see in the general situation that the professional operators and chiques have been short of stocks ever since the end of the spring rise, when they unloaded upon the public. The latter have supported prices throughout the summer, and have, in fact, advanced them, the im-petus given by the chiques being so great that its propulsive force carried stocks even fur-ther than they wished them to go. Now the heavy operators composing these cliques are back from their summer rusticating, and the market yesterday feet the first effects of their presence. They are, with few exceptions, on the "bear" side, and the street on the "bull" side. The excep-tions are for a few of the railway stocks, which, being in for scrip and cash dividends, are held off the street and allowed to decline only sufficiently to tempt "bear" sales, but not to allow the covering thereof. The movement was started with Rock Island. To-day it was followed up with Michigan Southern (or Lake Snore), which declined to 101% on he discovery of the fact that the New York Central Railroad Company had thrown upon the market the Lake Shore stock which they received in exchange for the Buffalo and Erie stock surrendered for exnge under the terms of the recent consolidation. In many quarters it had been strongly suspected that the Michigan Southern ailiance with Erie was a ruse, or, at best, a threat, to force New York Central into ters terms of consolidation, and hence the price esitated so long after this intelligence was made reted to mean war between the two parties, the amodore standing on his dignity and refusing to make any overtures to the Lake Shore directors. A panic in the stock of the latter would have been the consequence had not the directors come to the respurchased. The cliques exact the farce of a quarrel so often to impose upon the public that ething of the kind might be looked for just now were not the signs of a rupture so open and visible. The Lake Shore people conceived they possessed the power to dictate in the matter of ough line between New York and Chicago. The New York Central party were unwilling to acknow ledge this supremacy, made through contracts by the Michigan Central and the Canadian road, cast the Shore stock on the market and have left their opponents the only alternative of ratifying the agreent with Erie. The Lake Shore books closed quite suddenly yesterday, preliminary to a vote of the stockholders on such agreement, the terms of which were published some time since. The vote will also be taken for the purpose of ratifying or reject-ing consolidation with the Wabash Railroad. novement against the stock market was assisted by the sudden stringency in money, arising for the most part from artificial influences, and from the activity brought about by the shifting of loans, calling in of gold and the like by the banks preparatory to the statement for to-morrow demanded by the Comptroller of the Currency. The showing on the item of specie is looked for with great interest, as there is a general impression that the spe-cie actually held by the banks will become small and "beautifully less" as compared with the figures of the weekly statement of Saturday last. The stringency was so great that seven per cent gold interest (which is construed to be legal) was paid almost universally on new loans. Old loans at seven currency were not as a rule disturbed. Even on governments seven per cent was freely paid. Did not the fear of the law deter lenders usurious rates could easily have been obtained. As it was there was a difference of an eighth between cash and regular for the higher priced stocks, and after bank hours stocks were "turned" for an eighth per cent. Some accounts were made up until a good while after three o'clock. This state or things easily produced a general decline on the Stock Exchange, and at one time stocks were pressed for sale with great eagerness. There was a raily at the last board, when prices closed as follows:—Cumberland, 32 a 38; Western Union, 36% a 37; Quicksilver, 1436 bid; Mariposa, 7 a 9; Mariposa preferred, 12 bid; Pacific Mail, 79% a 79%; Boston Water Power, 15 bid; Adams Express, 56% a 56%; Wells-Fargo Express, 18½ a 19½; American Express, 30½ bid; United States Express, 62 a 63½; Merchants' Union Express, 10 bid; New York Central, 203½ a 203½; Budson River, 181 a 183; Harlem, 158; Reading, 96%; Michigan Central, 128% a 130; Lake Shore, 101% a 102; Illinois Central, 137 a 140; Cleveland and Pittsburg, 108% a 109; Chicago and Northwestern, 79% a 79%; do. preferred, 88% a 89; Cieveland, Columbus and Cincinnati, 78%; Rock Island, 111% a 111%; Milwaukee and St. Paul, 76%; do. preferred, 85% a 86; Toledo and Wabash, 78 a 80; Fort Wayne, 86%; Atton and Terre Haute preferred, 57 bid; Ohio and Mississippi, 31% Jersey Central, 104% a 104%; Chicago and Alton, 88 a 88 1/4; Hannibai and St. Joseph, 123 a 124; do. pre-ferred, 121 bid; Columbus, Chicago and Indiana Central, 33% a 34%. After the board prices again went off, but upon the presumption that money must become easy to-morrow and Thursday, owing to the disbursements in payment of the \$3,000,00 bonds then to be bought by the government, there was a reaction toward the close, Central recovering to 206, and the general list fractionally. The following shows the range of the principal stocks to-day:-

The clique either suffered the gold market to de cline to-day or they were unable to overcome the influences of reports of a firmer and better feeling in the foreign monetary centres. It is suspected that they were among the sellers yesterday, when gold declined from 137%. It is this mystification which confuses the street. Under it the clique work more successfully. While many suspect they have commenced to unload, others are sanguine that gold is not yet high enough for their purposes of a retrograde movement. However, as they went in at 131% a 133%, and the price has touched 187%, it remains to be seen whether they are not satisfied. It was a bold and dangerous experiment to run counter of the whole street and of the popular sentiment. Some thought to-day that letting the market settle because a number of smailer "bulls" had got into the same boat with them, and they were anxious to get them out. The activity in money was a natural influence for a decline, but its effect was overcome after banking hours, and under freer purchases the price, which 130%, especially as there was a feeling that the banks would make gold active to-morrow in preparing their

The mystification of the street was also carried on in the loan market, where the supply of gold was again irregular and variable. In the morning 1-32, 7 per cent, 6 per cent, 1-54 and 3- per cent to flat were paid for borrowing, after which the lenders were in the majority and balances were carried for 7 to 4 per cent. In the afternoon the rate was flat. The disbursements of coin interest to-day amounted to \$199,746. At the Gold Exchange Bank the gross clearances were \$173,076,000, the gold balances \$3,294,304, and the currency balances \$4,000,179,

opening, in consequence of the improved feeling in Europe, but prices, gave way before the activity in money, and broke down to the following, which were the closing street quotations:-United States currency sixes, 110 a 110%; do. sixes, 1881, registered, currency sixes, 110 a 110%; do. sixes, 1881, registered, 122 a 122%; do. do. coupon, 122 a 122%; do. five twenties, registered, May and November, 121¼ a 122; do. do., coupon, 1862, do., 121¼ a 121¼; do. do., coupon, 1863, 121¾ a 122; do. do., coupon, 1863, 121¾ a 122; do. do., registered, January and July, 120 a 120¼; do. do., coupon 1865, do., 120 a 120¼; do. do., coupon, 1867, do., 120¼ a 120½; do. do., coupon, 1868, do., 120 a 120¼; do. ten-forties, registered, 110¾ a 111; do. do., coupon, 110¾ a 111.

# COMMERCIAL REPORT.

TUESDAY, Sept. 7-6 P. M.
ASHES.—Pot were in moderate demand and with light receipts prices were steady and firm at \$7.37 % a \$7.62%. Peary
were dull and nominal.
BEESWAX was slow of sale and heavy at 42%c. a 43%c.
BUILDING MATERIALS.—For most articles coming under

this classification the market was quiet. Frices, however, were generally steady. Eastern spruce was only moderately sought after, but, being in moderate supply, was firmly held at \$18 a \$22. Sales 350,000 feet. Laths were in light supply and firm at \$2 75. at which price there were sales of 1,500,000. Lime was in fair demand and firm at \$1 50 for common and \$1 75 for lump, while Rosendale cement was selling freely at \$2. Bricks were in fair demand at the following quotations:—Croton, 316 a \$15; New Jersey pale, \$6 a \$5 50; do, hard, \$6 a \$7; North river, \$7 50 a \$9 50, and Philadelphia front \$45 a \$50.

COTTON.—The market for this staple was quiet, the demand from all sources being light, and prices were heavy and about \$6. lower, as will be seen by reference to our quotations subjoined. The sales were only 702 bales, of which 579 were for spinning and 123 on speculation. For future delivery the business was light, and prices were heavy. Sales 300 hales, basis low middling for October, and 200 do, f. o. b. at New Orleans for December, on private terms. We quote:—Classic Conference of Prices were heavy. Sales 300 hales, basis low middling for October, and 200 do, f. o. b. at Ordinate Conference on private terms. We quote:—Classic Conference of Prices and Private Conf

ESCAPE FROM CLINTON PRISON.—On Tuesday last five convicts cleared the fence of Chinton prison and escaped. They have not yet been retaken. The guard, J. N. Davis, who failed to give the alarm, has been discharged. The convict who made his escape not long since by throwing pepper in the eyes of his keeper, has been returned to his old quarters, having been arrested in New York while engaged in a burglary. The ball discharged by keeper McFarian at him at the time of his escape is yet lodged in his person, faving penetrated near the spine.—Ogdensburg Journal, Sept. 4.

BLASTING AT HELL CATE.

Professor Minilefert's Operations Yesterday—Remarkable Effects of the Explosion on the Sunken Rocks, the Fish and the Water—Relies from the Bottoms of Ships.

The work of blasting the rocks that obstruct navigation through Hell Gate goes bravely on under the personal direction of Professor Maillefert, and the indications are that if the government continues to sustain the contractor, in his offerts as it has done

JUSTICE GRIER AND THE UNITED STATES SUPREME COURT.—Colonel Forney, in the Philadelphia Press, says he is "authorized" to contradict our statement that Justice Grier intends refring from the Supreme Court bench. By whom was this "authority" given' if by the venerable Judge himself, it is final; for he must be supposed to have the best knowledge of his own purposes. If by some officious friend, we must be permitted to doubt. Whatever may be the present design of Justice Grier, it is a fact familiar to those who have his confidence, that he has long looked with desire to the repose and recreation to which he is entitled by growing years and the inevitable physical infirmities of age; that he has regarded the laws of Congress providing for the voluntary retirement of judges on a salary when more than seventy years old, as presenting to him a desirable opportunity; and that he has spoken of resigning next spring in such terms as to create an impression that his mind was fully fixed upon the subject. Nor were we alone in this understanding. The question of selecting his successor has been fully discussed in official circles at Washington and the probability of his withdrawal may be said to have had an effect upon certain arrangements for the distribution of patronage, Knowing this to be a fact we are desirous to understand upon what "authority" Colonel Forney makes his specific denial.—Albany Ecening Journal, september 6.

A Worthy Daughter of a Farmer.—Miss Neille B—, a rosy cheeked, bright eyed, dashing farmer's daughter, hving in independence, oakland county, Mich., has not soured her temper in signing over fancied wrongs, nor does she bewail her sad estate because, having been born a woman, she cannot act the part of a man. When her father's thirry acres of grain, however, was spoiling to be cut, and there were men to bind it, but no one to drive the team, she tied her Newport hat down under her chip, donded her garden gloves, mounted the seat and drove and worked the reaper over the whole thirty acres. She comes of a good stock, her mother having helped to make the first grain stack in the county nearly thirty years ago.—Dorchester (Md.) News, Sept. 4.

## MARRIAGES AND DEATHS.

Married.

Married.

ARROWSMITH—LUM.—At Matawan, N. J., on Sunday, August 29, by the Rev. F. A. Slater, Major Thomas Arrowsmith, of Middletown, N. J., to Miss Connella A. Lum, of New York city.
